

STREAMFLO® **Mini**

Compact Water Delivery Unit

The Streamflo® Mini is a compact water delivery unit that makes smaller window cleaning tasks a whole lot easier. Complete with a powerful pump and rechargeable battery, its 12.5ltr water tank is removable, allowing the stainless steel frame to fold down for easy transportation and storage.

The Streamflo® Mini can be coupled directly to a waterfed pole and is the perfect answer for window cleaning in areas where trailing hoses are not possible eg. courtyards, atriums, etc.

Features & Benefits

- Durable and compact design
- Stainless steel folding frame
- 12.5ltr container
- Rechargeable battery
- Adjustable 9x speed controller
- Powerful 100psi pump
- Wheels for outdoor use
- Extendable handle
